DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, presents to subscribers and the general public, this, the 1963 edition of the Gloucester City Directory, including Rockport.

Confidence in the growth of Gloucester's and Rockport's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Gloucester and Rockport to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Gloucester and Rockport Directory will fulfill its mission as a source of authentic information pertaining to the cities.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the cities, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Gloucester and Rockport, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Gloucester, including Rockport, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department printed on green paper. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, the fourth major department is printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Gloucester and Rockport.

The Gloucester Directory Library

Through the courtesy of the publishers of the Gloucester City Directory, a Directory Library is maintained in the offices of the Gloucester Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Statistical Review

Form of Government--Plan E (PR) with City Manager.
Normal Population--25,789 (Federal Census 1960).
Summer Population--40,000 estimated.
Area--Thirty-six square miles.
Altitude--Fifty-seven feet.
Assessed Valuation--Personal $4,480,550 (1963); Real Estate $53,094,795 (1963); Automobile $4,443,170 (1963); Vessels $739,000 (1963); with $68.00 (1963) tax per $1,000.
Native Born Population--85 per cent of whole population.
Predominating Nationalities in City--Native American, Italian, Portuguese, Finnish, Canadian, English.
Parks and Playgrounds--Sixteen with 700 acres.
City's Bonded Debt--$2,218,000 (May 1, 1963).
Financial--Cape Ann Bank and Trust Company, and Gloucester National Bank with total combined resources of $23,769,968; Cape Ann Savings Bank with total resources of $22,971,000; Gloucester Cooperative Bank with total resources of $12,218,500.
Post Office Receipts--$314,978.00 (July 31, 1962).
Telephones in Service--8,860.
Church Buildings--Twenty-one.
Trade--Territory (Retail) serves 40,000 people within the trading area covering a radius of thirteen miles.
Hotels--There are two commercial hotels open all year, with total of forty rooms; also 3 hotels which operate only in the summer months. There are motels, motor courts, light housekeeping cottages, guest homes, and other facilities to accommodate summer guests.
City Served By--Boston & Maine railroad.
Amusements--There are two indoor theatres, with a total seating capacity of 2,132 people, a drive-in theatre off Route 128 at Exit 3, car capacity, 663.
Hospitals--(1), Fully approved general hospital with maternity service; 119 beds, 25 bassinets, can expand up to 135 beds without difficulty. Maintains referral out-patient department. Surgical, Medical and Dental staff includes 35 local doctors and dentists plus consulting staff of approximately 20.
Education--Public: 1 High School, enrollment 1,800; 1 Central Grammar School, enrollment 820; 10 elementary, including primary schools, including 4 ultra-modern completed in past 14 years, enrollment 26,045. Parochial: 1 High School, enrollment 130; 1 Grammar School, grades 1-8, enrollment 640; Second parochial school expected to operate during 1965, boys' high school, expected enrollment, 400. Private: 1 school, grades 1-8, enrollment 165. Value of all school property, private and public approximately $7,000,000.
Libraries--Central Library in City contains 37,413 volumes in adult section and 14,743 in children's section. It also has 1,115 recordings. Branch libraries are maintained in East Gloucester and Lanesville. Private libraries located at Annisquam Post Office and in Magnolia.
City Statistics--Total street mileage 125, with 100 miles paved, 25 miles unpaved. Miles of gas mains laid, 62; sewers, 15.3 miles main lines. Capacity of water works (municipal) 1,320,000,000 gallons, daily average pump of 3,264,105 gallons with 123.1 miles of mains and value of plant estimated at $4,246,000. Distributing reservoir at Bond's Hill with a 6,000,000 gallon capacity. New storage reservoir now being built at Goose Cove, should be completed by late 1964.

Fire Department--Central Station, city proper. Substations at Magnolia, East Gloucester, and Bay View. Employs 73 men including a Chief, 3 Deputy Chiefs, a Motor Supervisor, 6 permanent Captains, 46 permanent men, 8 reserve men, and 8 call men, with the following equipment: 6 pumping engines (1 in reserve), 2 ladder trucks, 1 combination hose and water truck, 1 rescue squad wagon, a chief's car, and 1 combination police and fire boat, 2 forestry trucks, 1 jeep. Value of fire department property, approximately $300,000.

City Electrician--Has 1 car and 1 truck in service.

Police Department--Has 36 regular men, 8 superior officers and 9 reserve men with 1 station and 7 pieces of motor equipment and 1 combination police and fire boat. Six pieces of apparatus and the police boat are equipped with two-way radios.

Geography

Gloucester is located about thirty miles northeast of Boston, Massachusetts. The original town of Gloucester occupied the whole northern promontory of Massachusetts Bay, known as Cape Ann and was bounded on the north by Ipswich Bay, on the east by the Atlantic Ocean, on the south by Massachusetts Bay and on the west by the towns of Manchester, Essex and Ipswich.

Cape Ann is divided into two nearly equal sections by the Annisquam River, an arm of the sea extending from Ipswich Bay about four miles towards and into Gloucester Harbor. Gloucester of today retains practically its same boundaries and includes the following districts: Magnolia, Annisquarm, Riverdale, West Gloucester, East Gloucester, Bay View and Lanesville. The northeastern portion of the Cape, however, which was included in the territory of the original town of Gloucester, is separated into what is known as the town of Rockport, the extreme end being known as Pigeon Cove.

The principal harbor is on the south side of the city and is formed by Eastern Point--a strip of unequal width extending in a southwesterly direction about three miles--a rock bound coast that defies the violence of surging waves dashing almost constantly against it, and affording within a safe shelter and anchorage for a large fleet.

The surface of the town is uneven; and its peculiar character strikes every beholder at first sight with astonishment. Bald, rocky hills, bold and precipitous ledges of rock, with acres of boulders of various sizes, in many places scattered thickly over the surface, combine to present a rare scene of naked ruggedness. The small tracts and patches of clear land, by which this view of barrenness is occasionally relieved, are covered with a strong and fertile soil, suited to the growth of most of our New England agricultural products.

The rocks of Cape Ann are granite, of a beautiful, dark color and are easily wrought into blocks of any needed size. Quarries formerly operated in different localities, several at Rockport, at the lower extremity of the Cape; others at Lanesville and at Bay View--suburban districts of Gloucester proper. The products of these quarries in the form of monuments, decorative ornamentations, paving blocks, etc., have been shipped to every part of the world.

In all, Cape Ann is picturesque. It is truly typical of the rock bound coast of our northern Atlantic States. A drive around the shore road from which an open view of the ocean is afforded practically throughout the entire route, presents a picture of rugged rocks dashed over with spray, these interposed with as many as forty beaches of various sizes around the entire Cape. The drives around Cape Ann are pretty. The inland roads through wooded sections of hard-wood growth give a touch of country life in sharp contrast to the rugged scenery along the shore.

History

From the time of the early explorers, Gloucester, Massachusetts, has occupied a large place in the history of New England and the nation.

It is claimed that the Norsemen in 1001, skirted the New England Coast, which they called New Vineland and landed here. It has also been said that they called the place "Kroasnes," the Cape of the Cross; that they were attacked by the Indians, their chieftain, Thorwald, being killed and buried on shore. In 1605, as authentically recorded, Champlain, on a voyage of exploration and discovery sailed about the cape which he named CAPE AUX ISLES.

The next year in early September he founded what is now Eastern Point and came to anchor in the inner harbor between Five and Ten Pound Islands--so named for the sums for which they were purchased from the Indians in Colonial times. Champlain was charmed with the place and made a prolonged stay. His name for it was singularly appropriate, "Le Beau Port," the Beautiful Harbor.

After Champlain's departure came Captain John Smith and Miles Standish with his company of followers. The honor of making the first settlement, however, which was also the first permanent settlement in Massachusetts Bay, belongs to the Dorchester Colony, a company formed by the Rev. John White, a Puritan minister, rector of St. Peter's church of Dorchester, England. His colony sailed for and reached what is now Gloucester in 1623, not, as had been supposed, for the purpose of escaping religious persecution. Its real object was the pursuit of the fisheries which had been successfully carried on off the New England Coast since 1606. The site of the first settlement was at Stage Fort, now a public reservation known as "Stage Fort Park," where their landing is suitably commemorated with a bronze tablet which bears an inscription telling the story of their original landing.

In 1624 Roger Conant was appointed Governor and the Colony attracted much attention. Its interests were concerned entirely in fishing and farming. The fisheries were successfully pursued and good catches sent to Balboa, Spain, but the arable land of the Cape was exceedingly limited. This latter fact resulted in the agricultural part of the colony moving to Salem. Those remaining, however, were joined by others from time to time, among them being a colony from Plymouth in 1630. In 1632 the first church was built and services held. In 1639, the General Court was asked to incorporate the town. A charter was granted in 1642, the town taking the name of Gloucester from the cathedral city in England, whence many of the early settlers came.

The history of Gloucester is entwined with events of national importance. It tells us the story of the expedition against Louisburg, the Gibraltar of America,--how these men, in a craft commanded by Captain Sanders and in a land company under Captain Byles, gave splendid service in reducing that stronghold; they were with Wolfe at Quebec and were in the foreground when the flag of France was lowered for the last time on the American Continent. In the Revolutionary War, the Civil War, in the Spanish American War and in the World War, the call to arms has ever been answered by the population of this fishing city. Their services have been rendered on land and sea and they have left behind a record of which any community may well be proud.

Fisheries

Destiny ordained that Gloucester should be the first and greatest fishing port in the New World. Back as far as 1602, that daring navigator, GOSNOLD, found that codfish were plenty in Massachusetts Bay and for twenty years before a permanent settlement was made here, the fisheries were pursued off this coast with profit. Destiny also took a hand when the Dorchester Company set out from England in 1623 to engage in a fishing trip and also to found a permanent colony. The ancient records tell us that the expedition had no definite place in view for settlement and that arriving late in the season at the fishing grounds on the Maine coast, finding the fishing poor and in hopes of making up a full fare, the

voyage was continued to Massachusetts Bay. Our first colonists, therefore, were fishermen and the first business of the place was fishing.

With the exception, possibly, of a very few years immediately following 1626, the fisheries have been followed from this port throughout all these 300 years, practically without interruption. Its history is a fitting story of a hardy race of fisher folk, who have ever braved the call of the deep in the pursuit of their industry which today ranks as the oldest in Massachusetts. It teems with stories of self-sacrifice and valor. It has been a costly industry, however. Braving the sorms and perils of the ocean in seeking their existence, scouring the seas almost to the Arctic Circle in their perilous quest, at the mercy of the storms and the heavy fogs, the treacherous shoals and drifting boats, over 8,000 of these men have been sacrificed in this perilous calling.

The name of Gloucester has been associated with the curing, catching, packing and distribution of fish since its early settlement in 1623. This industry may truly be said to be the corner stone upon which the city's prosperity and reputation has been based, although at the same time other pursuits have gained ground and prospered.

Gloucester presently has 25 firms engaged in handling and processing fish. Of this number, five are engaged in fish cooking processes, principally fish sticks. The total number employed in shore processing and fish cooking plants varies from 1,100 to 2,600 during the peak production season.

Production of cooked and breaded fish items in 1962 amounted to 42,000,000 pounds, of which 22,000,000 pounds were fish sticks. The base product from which fish sticks and other cooked fish items are made from frozen blocks of fillets, principally cod, imported from Canada, Nova Scotia, Newfoundland, Greenland, Iceland, and more recently from Norway and Denmark. These imports come in principally by cargo steamer, although large amounts are trucked from other ports of entry. Gloucester in recent years has developed into a distributing port of fish blocks to fish stick processors all over the country—as far as the Pacific Coast. "Total imports of fish and shellfish amounted to 110,000,000 pounds in 1962, of which 63,000,000 pounds were frozen blocks."

Gloucester has upwards to 130 vessels of 5 to over 100 tons gross engaged in off-shore fishing, and more than 100 under five tons engaged in inshore fishing and lobster fishing. Crews of Gloucester fishing vessels total upwards to 2,000.

Gloucester has a State Fish Pier which started operating early in 1939, located at the foot of Parker Street and over-lapping what formerly was Five Pound Island. It has a modern cold storage plant with capacity of 7,500,000 pounds. This pier is equipped to engage in an extensive fresh fish business. Individual stalls are rented to operating firms. 9 facilities now provide Gloucester with a total of 52,650,000 pounds of cold storage space, and a total daily freezing capacity (24 hours) of approximately 1,750,000 pounds. Landings of fresh fish at Gloucester increased from 75,661,000 pounds in 1939 with a value to fishermen of $1,202,000 to a total of 167,219,000 pounds in 1962 with a value to fishermen of $6,421,000. Gloucester is one of the largest fish producing ports in the country. Gloucester also has two plants engaged in fish by-product manufacture. These plants use waste resulting from fish processing and non-edible fish (principally menhaden) for extraction of fish oils and the conversion to fish solubles and fish meal used in the processing of poultry and animal feeds.

Manufacturing and Local Industries

Gloucester has many other industries aside from the fisheries but one directly connected with these, is the manufacture of liquid fish glue. The ancient Greeks and Romans knew that a strong adhesive could be extracted from the skins of certain fish, and used this adhesive for such

delicate purposes as fastening precious stones in their setting. Fish glue, however, was made in very small quantities and had to be used immediately. It was not until the last century, sometime between 1870 and 1875, that liquid glue was made a commercial possibility by the discovery of means whereby it might be permanently preserved in liquid form.

Formerly, quarrying of granite was a very important industry. In recent years, quarries at Rockport have been closed, and the industry there is concerned principally at the present time in the cutting of granite pavement blocks.

Awnings, barrels, boats, bread, castings of iron and brass, cigars, codliver and vitamin oils, copper, marine and house paints, dip nets, drop forgings, fish--fresh, salted, smoked and canned, fishlines, fish meal, fishing tackle, fish traps, glue, granite, hammocks, hawsepipes, inks, iron forgings, ironwork for vessels machinery for cold storage, masts, men's, women's and children's clothing, mucilage, nets, overalls, pants, paste, pastry, patent bits, patent steering wheels, porch dresses, printing, protective outer clothing, rudder braces, sails, seines, sheep-lined coats, ships' blocks, smokestacks, spars, steel forgings, stove polishes, street dresses, tanning oils, tents, traffic signs, trawl nets, truck bodies, ventilators, vessel steerers, windlasses for vessels, wooden boxes and drums, yacht steerers.

While Gloucester is situated far from the sources of supply of some raw materials, it has several advantages over inland cities. For instance, the city is on the sea coast where it can obtain various supplies direct by water, at a cheaper rate than by rail. It is located on the Boston & Maine Railroad, with a schedule of sixteen trains daily to and from Boston. Route 128, opened to traffic in 1953 with a high-level bridge over the Annisquam River. Route 128 is a modern double-barreled highway into Gloucester with a circumferential connection to the State Fish Pier and to Route 127 into Rockport. Route 128 connects with all major highways to New York and to points west. Routes 133 (formerly 121) and 127 also are primary highways routes into Gloucester.

Summer Colonies

The whole of Cape Ann is an ideal resort for the summer tourist. Its admirable location, surrounded practically on every side by the open sea, its magnificent summer climate, never extreme on the hottest days in summer; its natural rugged beauty; its many beaches, both large and small; its pretty inland roads through hard wood groves; its splendid summer cottages and hotels; all combine to make Cape Ann a splendid summer home for those who wish to escape the monotony of city life. Gloucester has long since taken its place as the ideal summer resort. To point out any particular charm it may hold for the summer visitor is difficult, for the attractions are many and of sufficient varieties to satisfy the most exacting critic.

It combines within a radius of one-half dozen miles practically every type of natural scenery found anywhere. Its picturesque harbor wharves, inspiring in thought the 300 years of struggle with the sea that its fishermen have endured in the pursuit of its industry; its many boats entering and leaving the harbor in plying their trade; its foreign fishing colonies, --those of the Italian and Portuguese; its beaches and parks; combine to make Gloucester ideal to the tourist.

Churches

Church influence is strong in Gloucester, many social and welfare activities centering in the church organizations, of which there are twenty-one in the city. The first church was organized in 1632.

There are over ninety clubs and fraternal organizations in the city,

including the Woman's Club, Rotary Club, The Kiwanis Club and the Gloucester Chamber of Commerce.

Good government, good roads, good schools, congenial social conditions, a high standard of citizenship, covenience to shipping points, nearness to a market, excellent transportation facilities, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Gloucester has them all.

Gloucester Chamber of Commerce

The Gloucester Chamber of Commerce is organized for the service of the public and for the promotion of the business and industrial growth of the community. Further information regarding manufacturing opportunities, business facilities and residential advantages, will be gladly supplied upon request by the Gloucester Chamber of Commerce, 120 Main Street.

ROCKPORT

Rockport, or Sandy Bay, as the town was formerly called, was a part of Gloucester until 1840, when it was incorporated and set up its own town government. Like Gloucester, its inhabitants early engaged in the fishing industry, but not possessing the facilities for large vessels, the pursuit of this industry has been largely confined to the shore fisheries, the trapping of lobsters forming the major portion of the business as carried on today.

Rockport granite is known the country over and the quarries at Rockport, Pigeon Cove and Bay View have produced many thousands of tons of this valuable stone and have furnished employment to several hundred workmen. The industry dates from about 1823, when the quarries were first worked, and has furnished granite for government fortifications and navy yards, Boston Custom House Tower, Woolworth Building in New York, and Brooklyn Bridge.

The summer colony has grown considerably in the last twenty years. A cleaner and more wholesome town in which to spend the summer cannot be found in New England. There are a number of good beaches, a beautiful shore drive, and the ocean scenery is unsurpassed. Many artists make their homes here during the summer months and find interesting subjects to transfer to their canvasses along the quaint old wharves and rugged shore.

The breakwater erected by the government has given Rockport a safe harbor, available for large vessels of all types, and the town is often visited during the summer by some of the fleets of United States Warships.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory* —listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide,* where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

POLK'S
GLOUCESTER

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1963

Including Rockport

Copyright, 1963, by R. L. Polk & Co.

Giving the location of Streets, Avenues, Parks etc., showing what other streets and places run from or across them, and with a list of Householders and Places of business arranged in numerical order upon their respective streets.

The streets are arranged in alphabetical order with the location of intersecting streets clearly shown.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Telephone numbers as supplied to us on our canvass are shown opposite names.

* Denotes houses incorrectly numbered.

This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

The numerals that appear at right edge of columns ahead of street descriptions and some street intersections are merely for the guidance of the publishers and have no other significance.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence.* Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.

THE REQUISITES OF AN UP-TO-DATE CITY

!

A Good Hotel

A First Class Newspaper

Good Banks

Economical Lighting Facilities

Good Railways

Cheap Fuel

Plenty of Pure Water

An Up-to-Date City Directory

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?
Who else in same or similar lines?
